

**Enabling Organizations to
Transition to a Digital QMS
for Increasing Quality,
Compliance and Productivity**

BACKGROUND

Quality Management is increasingly getting complicated move away from traditional paper-based Quality Management System (QMS) to a sophisticated Digital QMS platform. This transition is not a straightforward change as it requires a well-planned collaborative transition effort from all stakeholders across Quality, IT, and Business Process functions.

HOW WE HELP CLIENTS

Techsol has helped companies to not only select the right technology vendor but also worked as an extended partner to implement and validate different types of QMS platforms.

Our team's knowledge on global and regional regulations can be leveraged to successfully implement, configure and validate the QMS platform to account for regulatory compliance (ISO 13485 Standard, FDA's 21 CFR Part 11, ICH's GxPs etc.)

TECHSOL'S SPECIALIZED SERVICES OFFERED FOR TRACKWISE® QMS

As a channel partner of Sparta Systems, a Honeywell Company, we specialize in providing managed technology services and process consulting expertise to implement, upgrade and support the TrackWise® Quality Management System (QMS) for Global Pharma, Biopharma, Life Sciences and Medical Device companies.

HOW WE HELP CLIENTS

Strategic QMS Technology Consulting

Our team of Subject Matter Experts can provide strategic guidance right from gathering system requirements, defining TrackWise technology roadmap, to incremental digitalization of quality processes.

TrackWise System Implementation / Upgrade / Migration & Validation

Using the GAMP 5 Risk-based validation methodology, we have developed TrackWise implementation accelerators that reduces overall effort for completing setup, validation, and system rollout.

Post-Implementation Configurations Management & Application Support

We offer SLA-based TrackWise application support through our Service Desk across time zones.

Our team of subject matter experts can provide knowledge support for selecting, configuring and implementing the right solution choice for:

- Quality Management Process Oversight
- Document Management
- Product Complaints Management
- Training Management
- Integrated Risk Management
- Supplier Quality Management
- Audits Preparation
- Quality Metrics & Reports

TECHSOL
LIFE SCIENCES

GET STARTED

If you are planning to move away from another QMS to TrackWise, our team can provide both process and technology consulting services for:

- Source Data Migration & Testing
- Establishing System Integrations with TrackWise
- Developing new reports and dashboards to provide insights on QMS processes
